

Warwick challenge for 2015

As in previous years this will be a simple knock out competition with the pairings being determined by chance. (Your names are drawn from a bowl !)

To begin in May 2015.

Seniors are to shoot 2 dozen arrows at a 122cm target from 60yds then 2 dozen arrows at a 122cm target from 50yds using 5 zone scoring.

Juniors and Novices are to shoot 2 dozen arrows at a 122cm target from 40yds then 2 dozen arrows at a 122cm target from 30yds using 5 zone scoring. (Juniors and Novices are shaded grey on the pairings list. 2 members will change to senior after 2 rounds if still in.)

This is to be shot as a stand alone round, after the normal 6 sighters.

If you have a Bye you must still shoot the round.

Immediately before shooting this challenge you must declare clearly to the other archers present that you are shooting your challenge round. That round will then stand, you can not abandon it and shoot again later.

”Please clearly mark your score sheet as “Warwick challenge”

Only 1 attempt at this challenge is permitted in each month and must be shot during the month

Your score is to be added to your allowance to make your total.

Allowances are based on your current outdoor handicap. (A considerable number of archers do not have a current outdoor handicap, for these people I have used current indoor handicaps or recent score handicaps. Where I had no clues as to current performance I assigned a starting allowance of 1311 for novices and juniors or 1408 for seniors) These allowances will change between each round of the challenge, with a new allowance being the average of your assigned allowance and the allowance for the score you shot. This means allowances can go up as well as down.

I will publish by e-mail a summary of the scores achieved and the new pairings as soon as possible after the last day of each month.

In any dispute the organisers judgement will be final!

Contact me if you require any clarification.
